

ACE Advanced Pro

ACE Advanced Pro is the most powerful variant of the ACE Family that encapsulates all the necessary features required to have a secure connection between your head office and your branch office. It allows you to access all your Head Office server files over a secure connection from any remote location.

The ACE Advanced Pro has a unique feature of dual sim connectivity in active to active mode and multiple ports to allow multiple connections so that you have almost 100% uptime, even at remote locations with uncertain internet connectivity. It also allows **Bandwidth Management and Multilink Auto Failover**, so you are always connected, even if one connection is down.
